

## Ammeter 1mA...3 A

EUR 0.00

Item no. 07036-00

### Function and Applications

Robust hand-held ammeter for measuring the current in AC- and DC-circuits. Especially suitable for student experiments.

### Equipment and Technical Data

- With moving-coil, scale with mirrows for parallex-free reading, selector to switch between measuring ranges, zero correction and 4-mm safety input jacks
- Measuring ranges: 1 mA ... 3 A AC / DC
- Max. load for all measuring ranges: Up to 10 A
- Accuracy class: 2.5
- Scale length: 78 mm
- Frequency range: 15 Hz ... 10 kHz
- Overload protection diodes and micro-fuse
- Plastic housing
- Dimensions (mm): 100 x 165 x 55
